ROOTTINE LETTER

(Mrom Our Own Correspondent.)

ENGLIGHNEETS.

A nurriage which is of great interest

to members of the Roman Catholic Church

in Sootland has been arranged between

Captain Colin William Macrae, Black

Watch; Exon of the Yeomen of the Guard,

and Lady Margaret Crichton-Stuart, only

daughter of the late Margula of Bute: and

the Dowager Marchioness of Bute, and

sister of the present Marquis. Captain

Macrae is a son of the late Mr Duncan

Macrao of Kames Cashle, Island of Bute

and a brother of Major Macras-Gilstrap

of Ballemore. Lady Margaret is thirty-

four years of age, several years younger

members of her family, interested in every-

thing Scottish, especially in everything

affecting the Highlands. On several co-

casions she has taken part in the reels at

the Royal Caledonian Ball. A good yachts-

woman, she is one of the few members of

her sex who sail their own yachts. The

late Marquis loft her a considerable fortune,

including land in Palestine, the house in

which the French Consul stays in Jerusalem

being her property. The marriage will

be celebrated in Edinburgh on the 26th of

this month, and the reception will take

place in the Marquis's house in Charlotte

Cunard, daughter of William Cunard and

was Parliamentary correspondent and

dramatic critic on the now defunct

Tribune. He wrote, among other plays,

"The Angel Unawares," produced at Ter-

MARRIAGES.

OPITUARY.

William Ellis Glosg, Lord Kincairney, retired Judge of the Scottish Court of Session. He passed as advocate in 1853, and for fifty years, it is said, never missed a day's attendancest the Edinburgh Parlisment House. An old-world figure, he might have stepped out of "Kay's Portraits," and he had a quaint manner, a kindly address, and a crackling humour. He was a sound lawyer and very careful, his attitude of suspense and hesitation being sometimes irritating to men of quicker decision. "I think so; st; least I think I think so," was a phrase attributed to him; whether of the sporryphs or not, it was characteristic of the man. On occasion he was quick and mordant in his wit. It is told of him that while an advocate Lord Young, tired of what he regarded as Mr Gloag's prolixity, took a witness in hand and with a few deft questions turned him inside out, "There!" exclaimed Lord Young with pointed selfsatisfaction, as he leant back in his chair. Mr Glong was angry, and not dumb. "Has your Lordship any more witnesses to call ?" was his retort. Hugh Blackburn of Ruthren, Moidart,

Professor of Mathematics in the University of Glasgow from 1849 to 1879.

Sir Andrew Muir, advocate, Edinburgh, Puisne Judge of the Supreme Court of Mauritius from 1880 to 1805, aged eighty-

Sir Arthur Mitchell, K.C.B., aged eighty-four. Counected with the Scottish Lunsey Board from its institution, first as Deputy Commissioner and then as Com missioner, he was the guiding spirit of its whole policy; and he was the creator of the system of caring for the insane in private THE SWATOW DRAWN WORK OU (Continued on Page 8.)

FLOURISHING BORNEO.

Ir is now twenty-eight years since the Borneo Company was granted and our a welcome and where the climate, alcontemporary, the British North Borneo Herald, signalises the event by publishing some most interesting figures regarding the present condition of affairs within the Company's territory. From these figures we gather that the revenue receipts for 1908 amounted \$1,220,676, an increase of \$81,122 over that of 1907, being a little over 7 per cont., whilst the Revenue Expenditure amounted to \$748,584 and the to-day by the s.s. Monteagle. Capital Expenditure to \$285,069. The total volume of trade in 1908 reached \$7,326,799, an increase of \$72,786 over the trade of 1907, and this in spite of the general trade depression throughout the East. Imports were valued \$2,754,788 and Exports at \$4,572,011 miversary of their Club. OTHER KINDS IN GREAT The total volume of trade for the first six months of the present year amounts to \$4,665,526, of which Imports accoun for \$1,343,358 and Exports for \$3,322,168. The Sekong estate, the only estate which is at present producing subber, has obtained tip top mark p ress for its shipments, and the other estates all report excellent growth of trees. Several expect to commence tapping next year or in 1911. The area actually planted at the end of 1908 was about 6,000 acres and this has been steadily increased during the present year. There is no doubt that, when these estates, and others to be formed, reach the productive singe, a valuable and permanent industry will have been established and North Borneo will take its place smonget the rubber producing countries. A total of 17,584 bales of to bacco was exported in 1908, an increase of 1,286 bales over the 1807 crop. INTERPORT CRICKET.

Some Interesting Records

"The object of this small volume is to place on record in a handy form the deeds of Interport Oricksters in the past and to provide those who come after with a book to which they can refer when necessary. So runs the opening sontence in the preface to a most useful publication giving details of interport cricket matches between Hongkong Shanghai and the Straits from the year 1866 down to the last contest in 1908, a copy of which we have just received from Mossrs Kelly and Walsh. Compiled by Mr J. W. Bains, a former Hongkong journalist, it comes most opropos on the eve of the 1909 con ests, and a perusal of ita contents will revive many memories in the minds of old hands as well as prove a source of considerable interest to others. volume comprises over 130 pages and dedicated to the memory of the members

hai in October, 1899. There are full descriptions of the 24 matches in which the three combinations have engaged, while the usefulness of the pleta batting and bowling averages, as Well as a summary of the results of the contests. From the latter we gather that of the 15 matches which Hongkong has played against Shanghai seven were won, seven lost and one drawn. So the teams now stand on an absolutely equal footing. The same observa tion applies to Hongkong's encounters with the Straits, both sides having won three each out of the six games played. Only three matches have been contested between Shanghai and the Straits, the former claiming two victories to the Straits' one.

Yet there was not a century registered, though R. D. Starkey only fell one short of the hundred. A remarkable feature of the innings was that there were no less than 50 "extras," of which 41 were " wides "! This total of 450 was nearly again reached in 1892 when Hongkong put together only one run short of this figure in their first contributed 107 to the score. There was only one other occasion on which over 400 runs were produced in the one innings, this boing when the Straits, in 1897, totalled 413, included in which were scores of 110 by G. Glassford and 101 by G. P. Stevens. The highest individual score ever made in interport cricket was 163, R. M. Mackennie knocking up this figure for the Straits against a combined team in 1897. The biggest victory was the first contest played, Hongkong overcoming Shanghai by no less than an innings and 264 runs ! INVESTIGATING EARTH. TIDES IN INDIA.

The work of the scientific department of the Government of India abounds in deep interest, and many of the investigations carried on are attractive to numbers who have no professional concern in their conduct. Prominent amongst these are some time the bread is baked not a trace of these and see-like plain of the sub-continent are was detailed by Lieut. Col. Burrard, at the Conference of the International Geode. tio Association at Cambridge ; recent levelling operations in Northern India showed that the Sivalik range gained a few contimetres in beight in the great earthquake of 1905. Geologists believe that the whole mass of the Himaleyss and Tibet is being pushed south, and wrinking up a new range out of the alluvial plain. The facts support this view; the folds of the new mountains conform to the shape of the quadrilateral of old mountains in Southem India, as if they were being aqueezed up sesinst an immorable butt; and the compensation of gravity is more nearly complete in the new mountains then in the old. The survey officers have recoully leid down six lines of beach marks, which will be re-observed every ten years to the ter interesting question.

For Wounds and Use After the Game -Leg Kicked During Play and Would Not Heal - Maturated and Swelled to Thrice Its Usual Size.

CUTICURA CURED HIM WHEN ALL ELSE FAILED

My trouble arose through getting kicked on the football field. It was a very bad wound about three inches in length. I did not take much notice of it at first but about a week after it started getting very painful and swollen. went to the doctors but after they had tried one thing and the other, I got tired of attending them, so I thought I would try to cure it myself. That was after about two months of their treatment. Well, I tried different ointments but all to no use, At last a friend of mine advised me to try the Outloura Remedies, so I purchased a box of Cuticura Uintment from the chemist and in about five days the leg showed signs of improvement. The swelling went down and all the matter and stuff came out quite fast. I mention that my leg (it was across the shin I had the kick) was about three times its usual size. So I kept on with Cuticura Continent and I tried Cuticura Soap to cleaned the wound with. After that it healed up quite fast and is quite well at the present time. I had two boxes of the Cuticura Cintment and I. still use the Cuticura Continent and I still use the Cuticura Soap which I find is the best I can get, as it makes one feel so fresh after a hard game of football and I will recommend it to all my friends. J. Lester, 64, Watlington St., Rending, Berks, England, Sept. 16, '08."
